

At Tempelec, we endeavour to passionately and unremittingly serve the community around us, as we firmly and stoutly believe that as an organisation, we have a social responsibility to contribute to society and to act in the best interests of the general public and our peers.

It is our solemn and sincere view that every individual plays a pivotal role in the community that they live in, and we are of the incorrigible and unwavering opinion that it is our duty and obligation to do all that we possibly can in our zealous quest to make people's lives easier for the purpose of strengthening the fabric of society that underpins the modern world.

This is why we will always do right by our clients and invariably respect their wishes, as they are the reason we are able to serve the community that we are a part of, for it is their aegis and patronage that permits us to operate and function as an organisation.

We wholeheartedly and unconditionally accept that as a member of the community, we need to give back in recognition of our fervent and profound appreciation for all that the community has done for us by allowing us to trade our products, offer our services, exchange ideas, and assist people in a productive and collaborative manner.

We actively support organisations who share our views and commitments in such activities that promote equality and development of young talent. We provide our services on a non profit basis to for local & regional non profit events. Our supply of temporary services, enable local councils and charitable groups to fulfil their objectives supporting local people.

A community can only prosper and thrive if individuals, groups, and institutions work together for the common good of all members, and this includes putting the needs of the community and its members before the needs of one's self, which is a principle that we vehemently hold and will never stray away from under any circumstances.

Since our inception, we have worked exceptionally hard to provide all our products and services at the most affordable prices, giving our clients the best possible value for their money, as profit should unequivocally come after the safety and well-being of people, and we are staunchly and resolutely opposed to engaging in any kind of conduct or activity that undermines the dignity and respect of individuals in a degrading or unjust manner through unconscionable exploitation fuelled by monopolistic behaviour to the deplorable practice of anti-competitive price fixing.

A market is only as healthy and vibrant as the people who trade in it, and it is our boundless and unceasing desire to ensure that the market that we trade in remains free and open by setting a pure and noble example for others to follow in the pursuit of increasing the amount of choice that customers and vendors have when doing business.

We are inordinately and exceedingly grateful to have the opportunity to help our community adapt and grow, regardless of the surrounding economic circumstances, we will relentlessly strive to benefit every individual, group, and institution in our locality to the best of our ability and expertise.

Good business is the result of one's will to offer something to another at a price that is proportionate to its cost.

This is what we at Tempelec stand for.
